~~SECRET~~
~~UNCLASSIFIED~~

Attachment # 1

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Geographic Research, ORR

DATE: 31 October 1957

FROM : Chief, Cartography Division, ORR

SUBJECT: Ready-Reserve Listing (annual revision) - Cartography Division

1. Attached is the list of civilians who are considered to be potential Ready-Reserve personnel for cartographic work in the event of an emergency.

2. The preparation of a list covering potential civilians currently in government service is not considered feasible for cartographic work as there are thousands thus employed and because the emergency demands would be equally felt in these cartographic installations. To select several dozen personnel, it is felt, would not be meaningful.
